**Subject:** Microsoft Settlement

Sirs:

Being a Senior the Internet is an important daily occupation. The recent legal settlement with Microsoft and it's competitors seems to be adequate. I feel it is a waste of TAXPAYER money to penalize the AMERICAN way of competition in business, and should end with this settlement. I think there are many other problems affecting we AMERICANS that need to be tended to. Please, help us older AMERICANS, allow us to have our affordable INTERNET!!

Donald Fix
